

REMARKS

All pending claims, claims 1-3, 12, 14 and 36-45, stand allowed in this reissue application. Claims 12 and 14 have been amended in this application. The formal matters identified by the Examiner in the Ex Parte Quayle Action are addressed below.

Amendments to Claims 12 and 14

Claim 12 has been amended to correct a typographical error.

Claim 14 has been amended to correct antecedent basis errors. Specifically the term “jig” was replaced with “mechanism” and the term “concave” was replaced with “partially hemispherical.”

Ownership Interest

The application stands objected to under 37 CFR 1.172(a) on the basis that “the assignee has not established its ownership interest in the patent for which reissue is being requested.” This objection is traversed because the ownership interest of the current assignee, Warsaw Orthopedic, Inc., is clearly established by the chain of title evidence referenced below. The chain of title from the inventors of the above-referenced application to the above-identified assignee is:

Applicants submit that the chain of title is clear and properly recorded and , respectfully, request that the objection based upon 37 CFR 1.172(a) be withdrawn.

Claim Markings

The cancellation of original claims 4-9 has been indicated by brackets in accordance with 37 CFR §1.173(d)(1).

Oath/ Declaration

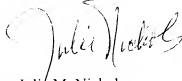

This application stands rejected under 35 U.S.C. §251 as being based upon a defective reissue oath for failing “to contain a statement that all errors which are being corrected in the reissuc application up to the time of filing of the oath/declaration arose without any deceptive intention on the part of the applicant. See 37 CFR 1.175 and MPEP §1414.” The Applicants respectfully traverse this rejection because the Reissue Declaration submitted on February 2, 2001 at paragraph 16 (and attached for convenience herewith) appears to comply with the requirements of 37 CFR 1.175 and MPEP §1414 cited by the Examiner. Specifically, the Reissue Declaration states, “[t]his application for Letters Patent addressed the aforementioned defects in the claims. These errors arose through inadvertence, and without any deceptive

intention on our part.” Therefore, the Applicants submit that the reissue declaration is compliant and respectfully request that this rejection be withdrawn.
